

Healing with the Energy of Angels

Throughout history Angels have mystified and uplifted humanity with their Divine sense of wisdom and healing. Known in most cultures to be messengers of Truth, Divine Healing and Guidance, their presence always brings a sense of peace, clarity and wellness. It has been documented all through history that various angels of enlightenment have bestowed gifts of Providence and Divine Medicine especially when evoked!

Join us in a day of meditation, healing and revealing as we open our hearts and connect with the Angelic realm! In this class we will be working with Archangel Michael, Archangel Raphael, St. Germaine and your own Guardian Angel as we open to a deeper experience of Angel Energy and intuitive guidance.

“Insight is better than eyesight when it comes to seeing an angel.”
